# Slippery Rock High School <br> Marching Band <br> Athletic Agreement 

We desire to have a close working relationship with all athletic groups of Slippery Rock High School. As in any school of our size, the same students tend to be active in everything. Students interested in participating in a fall sport are expected to complete the appropriate form by July 15 . This form will ask you compare the entire schedule of the marching band and the entire schedule of the sport. All conflicts must be listed with an explanation of how it will be handled using the following guidelines: If you choose to attend the athletic practice over the band practice, the next time this conflict occurs you are expected to choose the band practice, and the reverse is true. Please take in consideration the more important events approaching. Performances should always take precedence over athletic practices and games should always take precedence over band practices. Once this form is completed the student will turn it in to their coach for approval signature and then bring it to the band director for approval. If your plan is not agreeable to both the coach and director, unfortunately, a choice will need to be made. The purpose of this policy is to better inform the coaches and director of any conflicts and resolve them ahead of time.
